

SOMYA GUPTA

WEB DEVELOPER

EXPERIENCE

MERN DEVELOPER

Koders

Apr - Jul 2021

This internship provided me a great exposure to real world projects. I worked with koders' team to build cross platform desktop applications. My day to day role included integrating the software with backend **API** and building front end components. technologies : **NodeJs, ReactJS, Redux ,CSS and ElectronJs.**

ROYAL CONSTRUCTION , FREELANCE

Jul- Oct 2021

Its's used for increasing their reach and getting consignments from all over India. Technologies : **HTML, CSS, Javascript and NodeJs.**

PROJECTS

VOOP CHAT

Mar- Nov 2020

A fully functional Video Conferencing app built upon **Expressjs , Socket.io, peerjs, MongoDB, WebRTC, Passportjs ,HTML templating and Bcryptjs.** Backed up with OTP verification for user authentication (implemented using node-mailer). Hosted on Heroku linked with GitHub.

Upcoming Features : Screen Sharing using chrome in built web API and recording to be saved on Google drive .

TECONNECT

Aug- Nov 2021

A group project , focused on collecting people with similar interest who want to apply their skills on cool projects by connecting with peers. Technologies : **NodeJs , ReactJs , Android(java).**

My role in the project includes Web interface and API development.
